5. Under the JavaScript heading, select the Allow all sites to run JavaScript (recommended) radio button.

6. Refresh your browser.

Enable JavaScript on Firefox

This section will provide the steps to enable JavaScript on Firefox

1. Open a new Firefox browser window or tab. Copy the following then paste it into the Firefox address bar: **about:config** and press the **Enter** key.

2. On the following page, click the button: "I'll be careful, I promise!"

This might void your warranty!
Changing these advanced settings can be harmful to the stability, security, and performance of this application. You should only continue if you are sure of what you are doing.
Show this warning next time

3. Enter **javascript.enabled** in the search bar. Check the row name under the **Preference Name** heading.

Sea <u>r</u> ch:	javascript.enabled			
Preferer	nce Name	 Status	Туре	Value
javascri	ipt.enabled	user set	boolean	false
services.	sync.prefs.sync.javascript.enabled	default	boolean	true

4. Double-click anywhere within the **javascript.enabled** row to toggle the value from "False" to "True".

Sea <u>r</u> ch:	javascript.enabled			
Preferen	ice Name 🔺	Status	Туре	Value
javascript	t.enabled	default	boolean	true
services.sync.prefs.sync.javascript.enabled		default	boolean	true

5. Refresh your browser.
